

Power consumption of main CNV motor driver for belt tension gradually varying from 0% to 95%.

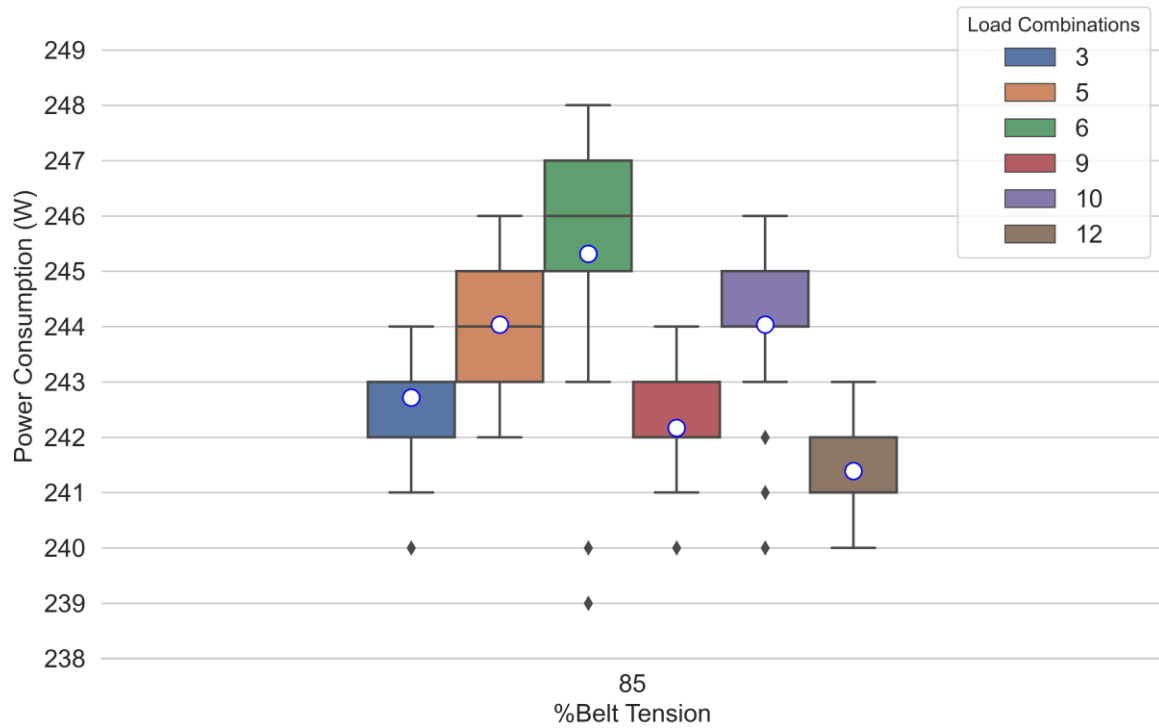

Power consumption of main CNV motor driver for belt tension gradually varying from 0% to 95%.

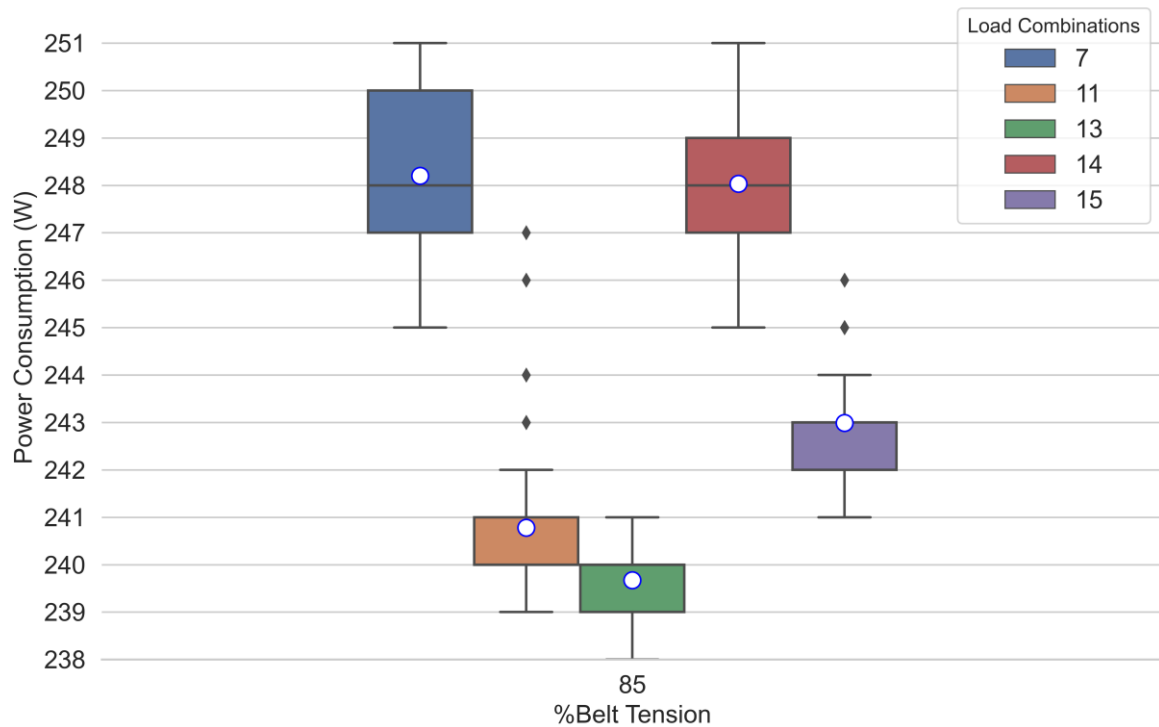

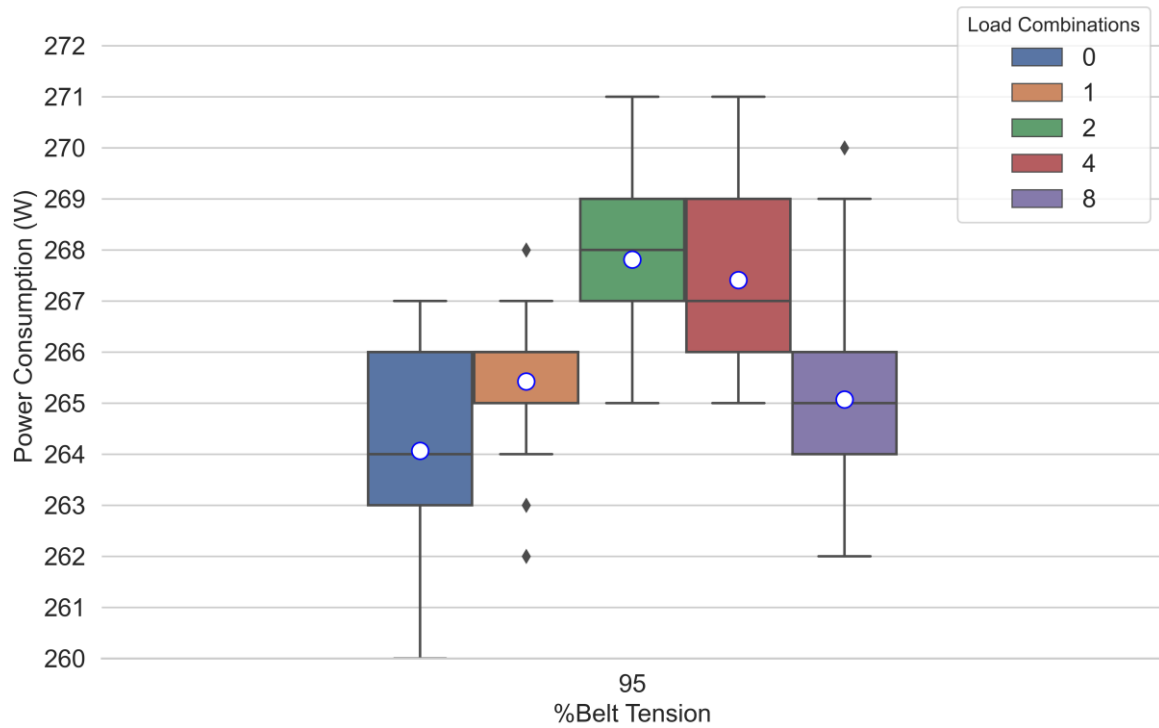

Power Consumption of Main CNV with 85% Belt Tension
for Load Combinations[3,5,6,9,10,12]

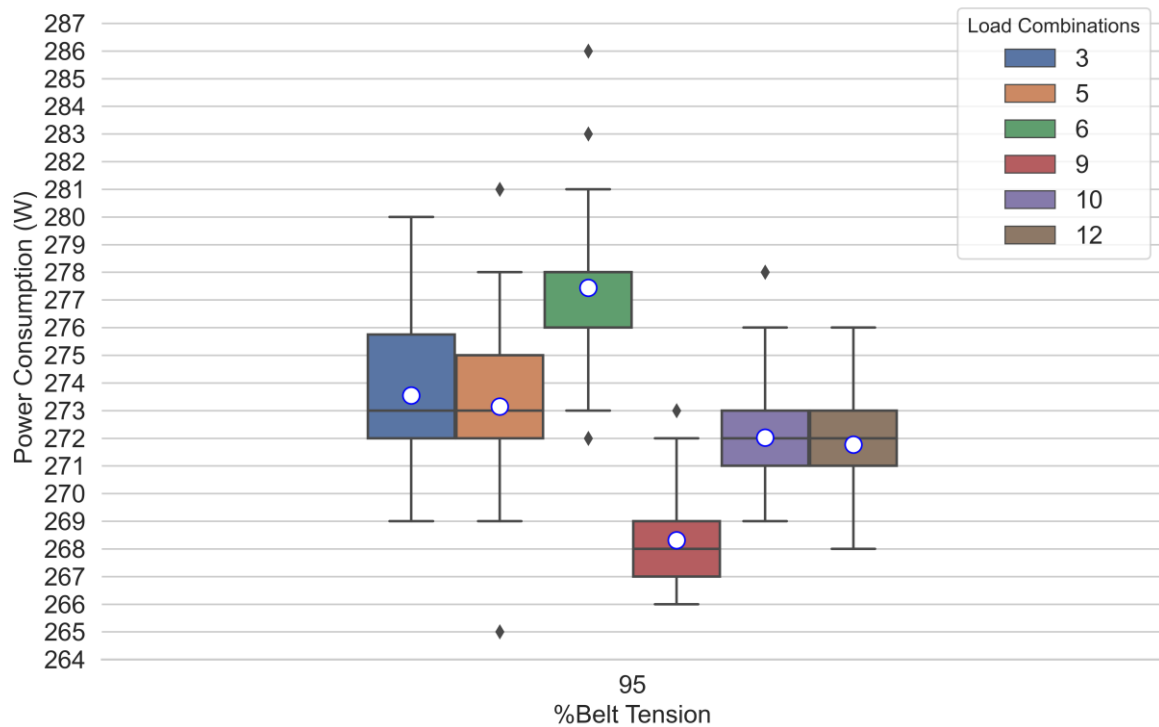

Power Consumption of Main CNV with 85% Belt Tension
for Load Combinations[7,11,13,14,15]

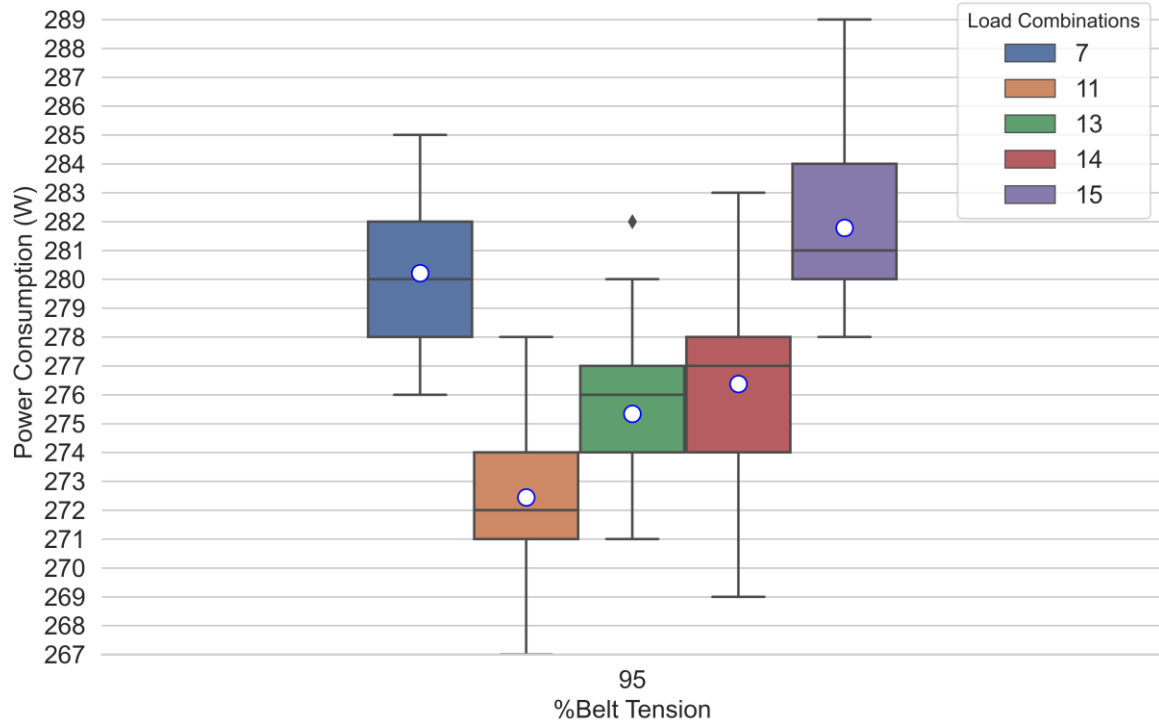

Power Consumption of Main CNV with 95% Belt Tension
for Load Combinations[0,1,2,4,8]

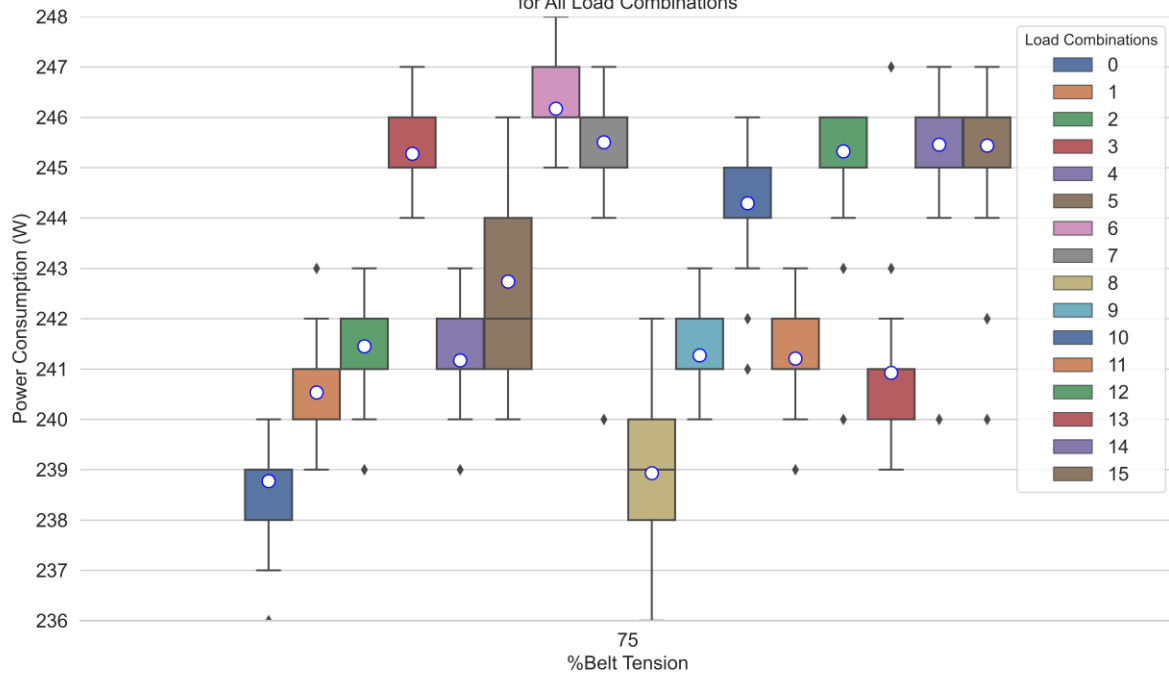

Power Consumption of Main CNV with 95% Belt Tension
for Load Combinations[3,5,6,9,10,12]

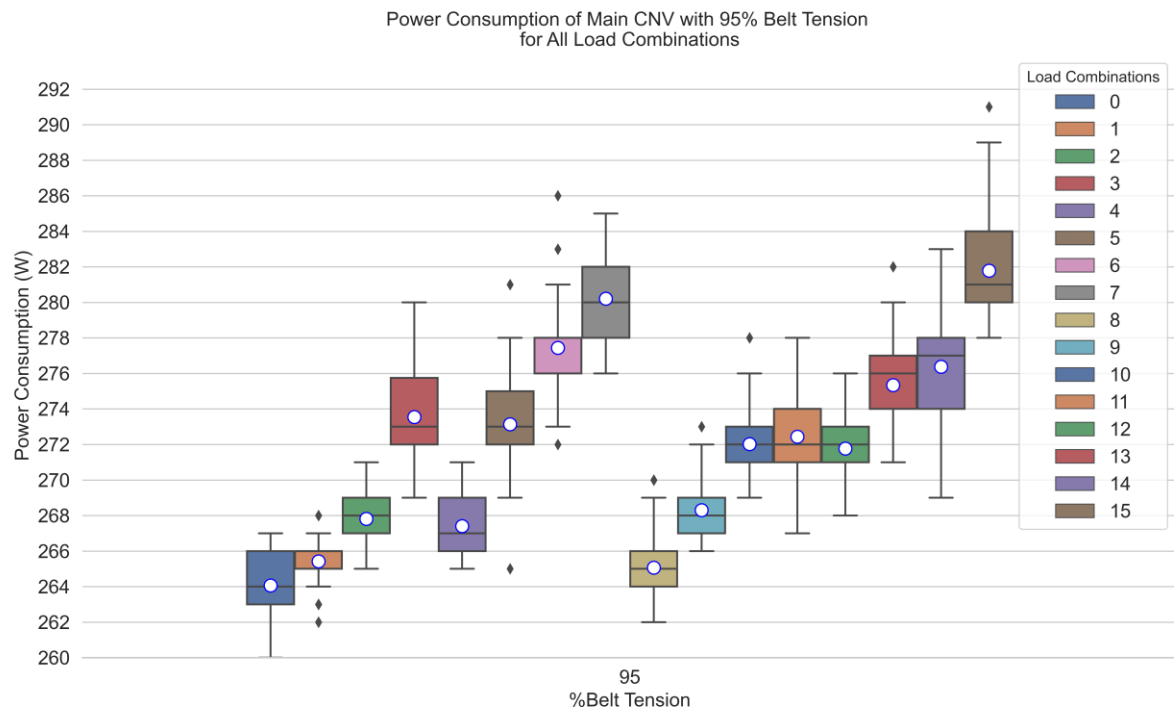

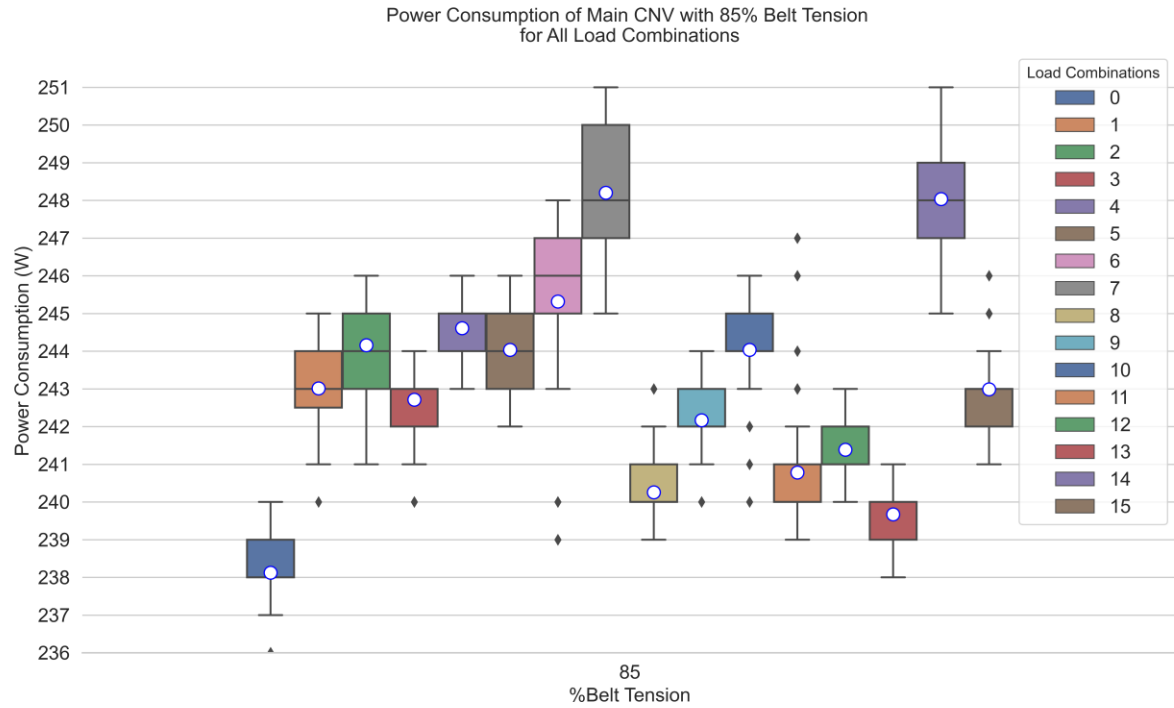

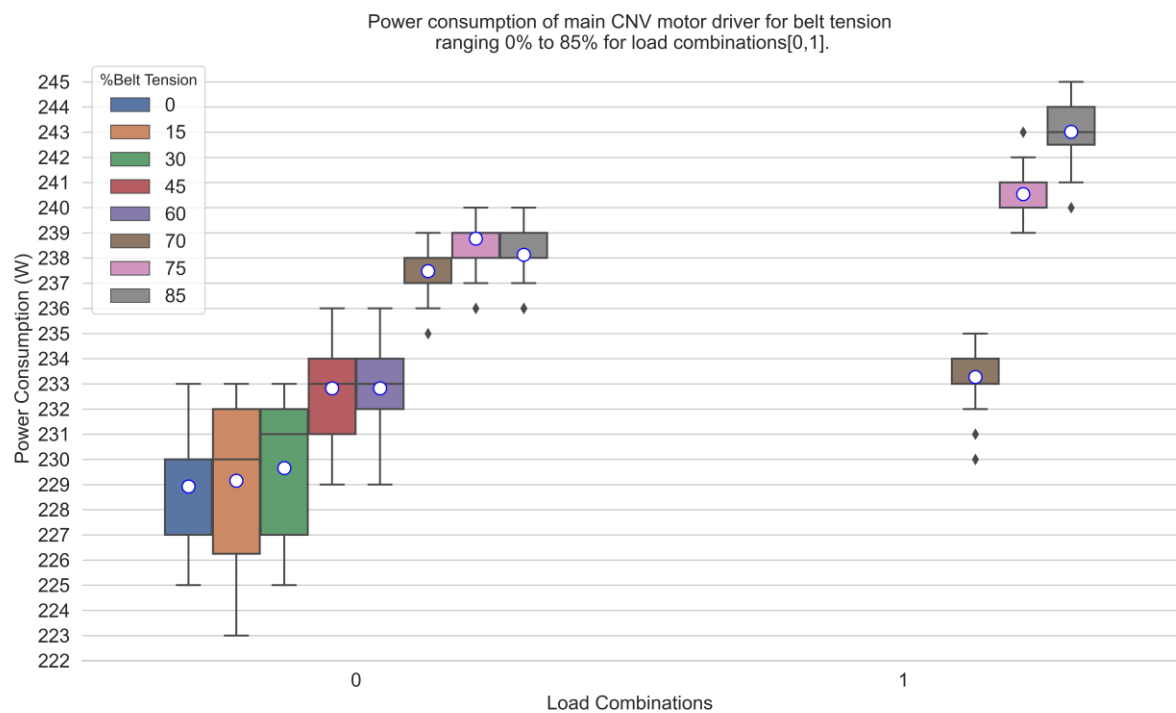

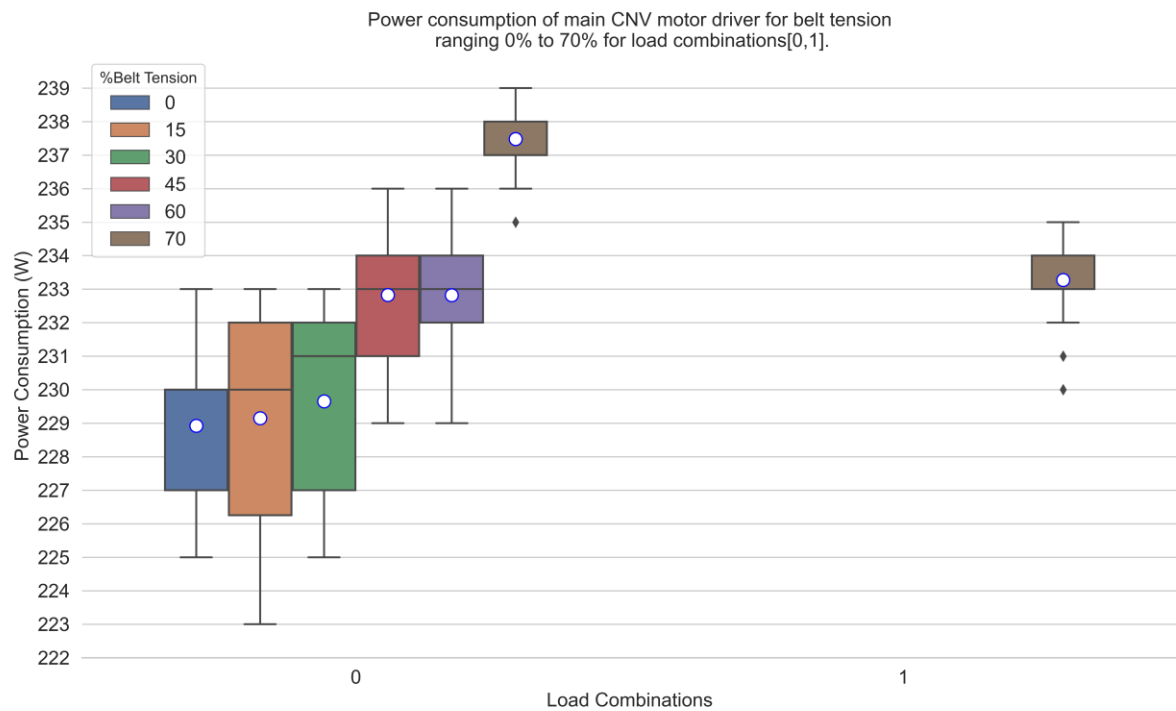

Power Consumption of Main CNV with 95% Belt Tension
for Load Combinations[7,11,13,14,15]

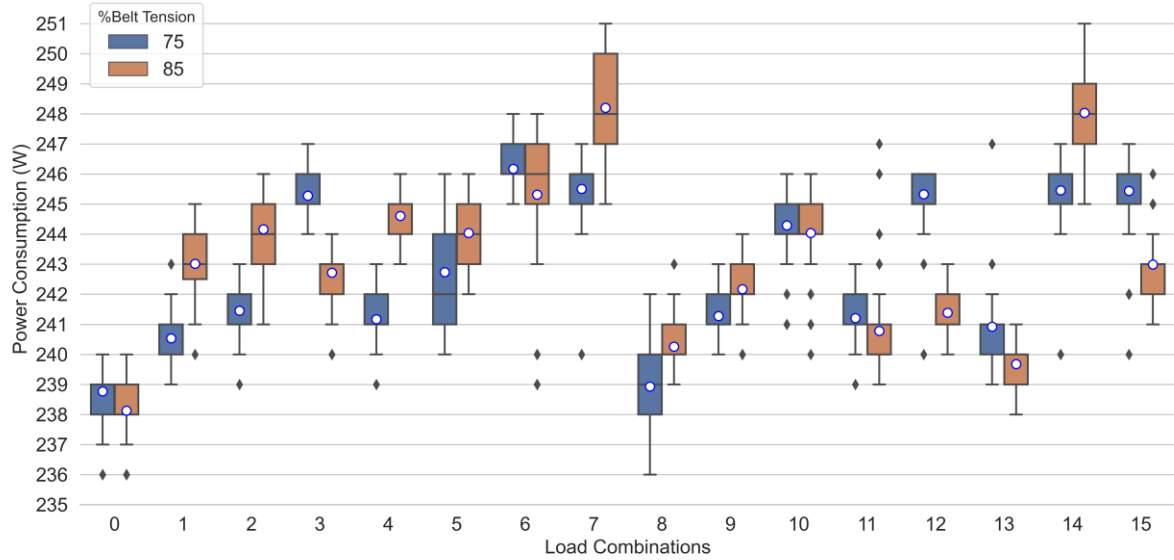

Power Consumption of Main CNV with 75% Belt Tension
for All Load Combinations

Power Consumption of Main CNV with 75% and 85% Belt Tension
for all Load Combinations.

Power Consumption of Main CNV with 75%, 85% and 95% Belt Tension
for all Load Combinations.
